Key Operating Instructions		
Use unleaded fuel only.		
STARTING		
To start, prime fuel bulb.		
For cold starting close the choke lever.		
Start the engine by pulling the recoil rope.		
As the engine warms up return the choke lever to the off position.		
PICKET AND POST DRIVING		
Set the driver onto the picket/post and position in desired place.		
Take a firm stance and hold the machine level. Slowly open the throttle lever to commence driving. Allow the picket to drive into the ground at its own speed, keep the picket straight.		
To STOP release the throttle (so engine is at idle), turn OFF the ignition switch.		
Please refer to the User Guide and Operator's Manual for full Operating Instructions.
